<p>Short description of the project, including its aims</p>	<p>Project Summary</p> <p>The project will use a Restorative Practice approach to engage underrepresented groups in the decision making and policy making processes. The project will focus on working with migrant Youth Groups in the partner countries, which are made up of young people from the partner country, the EU and third country nationals. Using Restorative Practice, the young people will be facilitated to explore the EU's Action Plan on the Integration of Third-Country Nationals and the EU Migrant Policy. After examining these policies, the young people will identify key issues which affect them as young migrants and make recommendations for future policies.</p> <p>The young people will become reflective, critical citizens and actively contribute to the decisions being made. They will be given a voice to communicate their recommendations to other young people in partner countries and to policy makers locally (MEP's, national Government representatives, key civil servants etc.).</p> <p>An event will be held at the end of the project to allow young people to express their views creatively. A research report will be compiled as part of the project and all project participants will be encouraged to use their voice through social media to communicate their vision for migrant youth.</p>
