Project short description:

Suceava County Council intends to propose a project in the framework of the European programme „Europe for citizens”, strand „Remembrance”, in order to commemorate 70 years from the end of the Second World War. The provisional project title is „The meeting between generations into European oral history. After 70 years from the end of the Second World War"

In doing so, we want to organize, in partnership other institutions and organizations (e.g. local or regional administrations, universities, museums, associations of veterans, NGOs) from different European countries, a series of activities for the wide and specialized public. Through this project we want at least 5 young people of 18-26 years old from each of the participating countries to collect the memories of the participants, veterans and witnesses, in the Second World War. This will facilitate the communication between generations and between European citizens and will raise the awareness of the young population of Europe about the European past and history. Furthermore, the young people participating in the project will document in photography the monuments dedicated to the victims of the Second World War from their region. At the end of the project, we will obtain a European collection of oral history and an inventory of the monuments on the Second World War. In completing the information collected by the young people participating in the project, the History Museum Suceava will organize a photographic exhibition, and the University „Ștefan cel Mare” Suceava will organize a specialized conference with international participation.

- Partners involvement:**
- Nomination of the administrative coordinator and of the scientific coordinator at regional level. The coordinators from each participating countries will be invited to Suceava for a working meeting. The travel to Suceava will be financially supported by the Suceava County Council from the European grant obtained for the preparation stage.
