Short description of the project, including its aims	<p>We have the experience, the knowledge, the will and the logistical infrastructure to implement a wide range of activities around issues of common interest in the context of the programme's objectives.</p> <p>We're already organizing civic groups and experts who could participate actively in some cities network modules that will be created by issues like understanding and discussion of Euroscepticism, solidarity in times of crisis, the fight against stigmatisation of migrants and creating actions in the framework of the European Year of cultural heritage 2018.</p> <p>In terms of our local cultural heritage, our aim is to encourage our people to explore Europe's rich and diverse cultural heritage through intercultural dialogue, to celebrate, understand and protect its unique value, and to reflect on the place that cultural heritage occupies in all our lives. Furthermore, by highlighting local networked culture heritage we will emphasise how to build stronger societies, how to create jobs and prosperity, what can be done to protect it and its importance for our relations with the rest of the world.</p> <p>All the above we hope to serve as basis for future initiatives and actions among the cities participating in the specific programme.</p>
	We are looking to participate as partners to any city network that can be formed with the above mentioned aims.
